Junior Electrical Design Engineer – Construction & Electronics

About Us

NextGen Electromech Solutions is an emerging player in the Irish construction-electronics integration space. We specialize in embedded systems, smart infrastructure, and power electronics for construction applications. We are currently seeking a motivated and technically capable Junior Electrical Design Engineer to join our growing engineering team.

Key Responsibilities

- Assist senior engineers with the design and testing of electrical systems for smart buildings and industrial setups.
- Contribute to circuit design, simulation, and debugging using tools such as Electronics Workbench and MATLAB.
- Implement and troubleshoot embedded systems using C/C++ and VHDL.
- Participate in safety audits and ensure adherence to health and safety protocols onsite.
- Collaborate with construction teams for site surveys and electrical layout planning.
- Assist in preparing client reports and presentations using PowerPoint and Excel.
- Maintain and update technical documentation and project logs.

Required Qualifications & Skills

- Bachelor's degree in Electrical or Electronic Engineering (2.1 or above preferred).
- Solid understanding of **Power Electronics**, **Control Engineering**, and **Telecommunications**.
- Proficiency in C, C++, VHDL, and experience with LINUX OS environments.
- Familiarity with **HTML** and **Microsoft FrontPage** for basic web documentation and internal portals.
- Competent with MS Office suite, especially Excel, PowerPoint, and Access.
- Strong organizational and time-management skills; capable of prioritizing tasks effectively.
- Excellent verbal and written communication skills and the ability to work well in a team.
- Previous internship or experience in an engineering, construction, or electronics environment is a plus.

Nice-to-Have

• Experience with laser survey instruments or demolition work procedures.

- Familiarity with safety compliance in construction environments, including chemical safety.
- Interest in developing customer-facing content or basic internal webpages.
 Involvement in team sports or leadership in extracurricular activities.
